COURSES

Desarrollo Web Completo
con HTML5, CSS3, JS AJAX
PHP y MySQL | Udemy.com |
88 hrs 47 min

WORK EXPERIENCE

FULL STACK DEVELOPER

Academic experience in Henry | Jul 2021

- Group project applying agile SCRUM methodology. It's a web app that allows the user to reserve and manage the rental of real state properties. It has filters, administration panel, creation and editing of posts, reviews, score, balance report, chat and login using Google and Facebook.
- It was developed using React, Redux, Material UI, MongoDB, Express, Typescript and Firebase.
- I created the routes in the backend with MongoDB for filters in front
- I designed the logic to manage dates (search availability, confirm, blocked and cancel bookings)
- I created the component (frontend) and its routes (backend) to add and later be able to edit a property from the administration panel of the host, using the firebase storage for images
- I designed the UI of the web app

FULL-STACK TEACHING ASSISTANT

Henry | Jun 2021 - Jul 2021

- Give new students support to achieve a successful integration to the study group and guide them on their first steps of the course
- Assist teachers to solve exercises and promote group collaboration (pair programming)
- Propose ideas to improve the bootcamp processes

FULL STACK DEVELOPER

Academic experience in Henry | Jun 2021

- I developed a SPA (Single Page Application) using React (Front End) and Redux as State management. I used CSS and SASS to create all components, without any external library
- The SPA consumes data from an API through a Back End developed in Node.JS, using Express and adding new functionalities to the original API. The database is made in PostgreSQL and Sequelize.

SALES SPECIALIST

Independent | Jul 2011 - Dec 2020

- I have experience in sales and customer service
- I created and implemented digital campaigns to get new clients
